PRIMARY EXAMINER

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CAR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel, claims 1-14.

Reasons for Allowance

Applicants' response to the last Office Action, filed March 18, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 15, 25 and 35 are allowable over the prior art of record. Claims 16-24, 26-34, and 36-46 depend from claim 15, 25, and 35 respectively, therefore, are allowed.

Independent claims 15, 25 and 35 recite the limitations of : obtaining image information from a first information channel which is a primary information channel to be reconstructed; transforming only the image information obtained from the at least

Art Unit: 2623

one additional information channel to obtain transformed image information associated with the first channel; and combining at least a portion of the transformed image information associated with the first information channel with at least a portion of the information from the first information channel to obtain corrected image information associated with the first information channel. wherein said corrected image information defines a reconstructed information channel that corresponds to said primary information channel. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of US 6687414 to Edger discloses a color image correction method with correlated channels. However, he does not teach the limitations of cited above.

In view of the amended claims and the Applicant's arguments, the rejections to claims 15-46 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
